Dear Mr Pfeiffer-

These clippings are from the Home News and N.B. Sunday Times. I will keep anything further that comes out.

My thumb is syill so painfull that I have Too have recourse to a typewriter which is not my native element.

What did you do with that man who was waiting for men at your office the other day?

He followed me out and asked me if I wouldn'd speak to someone from my own home town. I lured him back to the office and tdd your door boy to keep him as I didn't want him.

Very cordially

Francis Noel Hall
